

WASP GUARD

PRODUCT DESCRIPTION

Wasp Guard – The unique dual action essential oil air freshener that keeps your surroundings fresh and wasp free.

Wasp Guard is a unique organic air freshener formula supplied in an easy to use, portable, and reusable container, therefore easily fixed to tables or bars or simply replace the lid and slip into your pocket or bag ready to use again. Wasp Guard has been developed by an experienced team of chemists to provide an attractive citrus based scent combined with unique properties that provide a 100% natural, effective but harmless deterrent for wasps.

MODE OF ACTION

Essential oils have also been used for thousands of years for cosmetic purposes, as well as for their spiritually and emotionally uplifting properties. They are also well known for their distinct aroma and insect repellent properties. Taking these core properties, a unique combination of oils was developed and produced by both steam distillation and cold pressing, that provides the purest of essential oils that are far more powerful than the botanicals from which they were extracted. This unique formula now enables to produce an air freshener that delivers an effective barrier against wasps.

Wasps have a very highly developed sense of smell. Whilst you will find the scent from Wasp Guard both fresh and natural the wasps will not.

At the table:

- Provide one Wasp Guard capsule per 4 table guests
- Open the capsule 15 minutes before dining
- A shield of essential oils spreads around your table
- Enjoy your summer table comfortably!
- Close the capsules after dining and enjoy your Wasp Guard for a whole season

PROPERTIES

WASP GUARD
